Dear Parents:

According to New York State Education Law, prior to the start of tryout practice sessions at the beginning of each season, a health history review for each athlete must be conducted unless the student received a full medical examination within 30 days. Annual sports physical at school or proof of a current family physician physical must be presented to the school nurse to be eligible to participate in sports.

Would you please complete the following questionnaire and return it to this office. This must be returned prior to the student's participation in sports.

Sincerely,

Mrs. Diane Devine  
School Nurse
