Introduction

The Green Island Board of Education (“Board”) is committed to providing a safe and orderly school environment where students may receive and District personnel may deliver quality educational services without disruption or interference. Responsible behavior by students, teachers, other district personnel, parents and other visitors is essential to achieving this goal.

The District has a long-standing set of expectations for conduct on school property and at school functions. These expectations are based on the principles of civility, mutual respect, citizenship, character, tolerance, honesty and integrity.

The Board recognizes the need to clearly define these expectations for acceptable conduct on school property, to identify the possible consequences of unacceptable conduct, and to ensure that discipline when necessary, is administered promptly and fairly. To this end, the Board adopts this Code of Conduct (“Code”).

Unless otherwise indicated, this Code applies to all students, school personnel, parents and other visitors when on school property or attending a school function.

This Code of Conduct in compliance with the Schools Against Violence (SAVE) legislation, which took effect on July 1, 2001, and DASA legislation, which took effect in 2012; for all school districts in New York State.

This includes lunch and study hall periods.

Each student is provided with a district issued chromebook for use during class. If a student needs to contact a caregiver during the school day they may do so through the main office. The same applies to caregivers; if a caregiver needs to contact a student during the school day, they may do so by contacting the main office. All students, PreK-12 are prohibited from wearing headphones or earbuds on or near ears unless approved by a faculty/staff member for instructional purposes to be used in class.

Confidentiality

Student records will be maintained by the school district for use by appropriate district personnel in developing the best possible educational program for each student. Parents or legal guardians are entitled to inspect the student's cumulative record. The parent is afforded the opportunity, through a hearing, to challenge the accuracy or content of the child's records. A student over the age of 18 is given the same rights as his/her parents.

Prohibited Student Conduct

The Board of Education believes all stakeholders should display and promote citizenship and expects all to conduct themselves in an appropriate, respectful, and civil manner, with proper regard for the rights and welfare of other students, district personnel and other members of the school community, and for the care of school facilities and equipment.

The best discipline is self-regulation, and students must learn to assume and accept responsibility for their own behavior, as well as the consequences of their misbehavior.

District personnel who interact with students are expected to use fair disciplinary action only when necessary and to place emphasis on the student's ability to grow in self-discipline.

The Board recognizes the need to make its expectations for student conduct while on school property or engaged in a school function specific and clear. The rules of conduct listed below are intended to do that and focus on safety and respect for the rights and property of others. Students who will not accept responsibility for their own behavior and who violate these school rules will be required to accept the penalties for their Conduct.

Reporting Violations

All students are expected to promptly report any violations of the code of conduct that they observe to a teacher, guidance counselor, the building principal or his or her designee. Any student observing a student possessing a weapon, alcohol or illegal substance on school property or at a school function shall report this information immediately to a teacher, the building principal, the principal's designee or the Superintendent.

All district staff who are authorized to impose disciplinary sanctions are expected to do so in a prompt, fair and lawful manner. District staff who are not authorized to impose disciplinary sanctions are expected to promptly report violations of the code of conduct to their supervisor, who shall in turn impose an appropriate disciplinary sanction if, so authorized, or refer the matter to a staff member who is authorized to impose an appropriate sanction.

Any weapon, alcohol or illegal substance found shall be confiscated immediately, if possible, followed by notification to the parent of the student involved and the appropriate disciplinary sanction if warranted, which may include permanent suspension and referral for prosecution.

The building principal or his or her designee must notify the appropriate local law enforcement agency of those code violations that constitute a crime and substantially affect the order or security of a school as soon as possible but in no event later than the close of business the day the principal or his or her designee learns of the violation. The notification may be made by telephone, followed by a letter mailed on same day as the telephone calls are made. The notification must identify the student and explain the conduct that violated the code of conduct and constituted a crime.

Disciplinary Penalties, Procedures and Referrals

The District will utilize Restorative Practices to foster culturally appropriate relationships and interactions between students and adults when necessary and appropriate. Restorative Justice is a powerful approach to discipline that is an inclusive process that engages all stakeholders and shifts the focus from punishment to learning. Restorative Practices will be utilized in the classrooms and in various settings within the school to build/foster a culture of care and develop culturally responsive interactions. The District will utilize Restorative Practices in conjunction with traditional discipline not in replacement of traditional disciplinary practices.

Discipline is most effective when it deals directly with the problem at the time and place it occurs, and in a way that students view as fair and impartial. School personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the student's ability to grow in self-discipline.

Disciplinary action, when necessary, will be firm, fair and consistent so as to be the most effective in changing student behavior. In determining the appropriate disciplinary action, school personnel authorized to impose disciplinary penalties will consider the following:

- The student's age.
- The nature of the offense and the circumstances that led to the offense.
- The student's prior disciplinary record.
- The effectiveness of other forms of discipline.

- Information from parents, teachers and/or others, as appropriate.
- Other extenuating circumstances.

As a general rule, discipline will be progressive. This means that a student's first violation will usually merit a lighter penalty than subsequent violations.

If the conduct of a student is related to a disability or suspected disability, the student shall be referred to the Committee on Special Education and discipline, if warranted, shall be administered consistent with the separate requirements of this code of conduct for disciplining students with a disability or presumed to have a disability. A student identified as having a disability shall not be disciplined for behavior related to his/her disability.

Procedures

The amount of due process a student is entitled to receive before a penalty is imposed depends on the penalty being imposed. In all cases, regardless of the penalty imposed, the school personnel authorized to impose the penalty must inform the student and parent/guardian of the alleged misconduct within 24 hours. Authorized school personnel must investigate, to the extent necessary, the facts surrounding the alleged misconduct. All students will have an opportunity to present their version of the facts to the school personnel imposing the disciplinary penalty in connection with the imposition of the penalty.

Students who are to be given penalties other than an oral warning, written warning or written notification to their parents are entitled to additional rights before the penalty is imposed. This applies to the following penalties included in this entitlement are:

Detention

Teachers, the principal and the superintendent may use after-school detention as a penalty for student misconduct in situations where removal from the classroom or suspension would be inappropriate.

Suspension from transportation

If a student does not conduct himself/herself properly on a bus, the faculty/ staff member on the bus is expected to bring such misconduct to the building principal's attention. Students who become a serious disciplinary problem may have their riding privileges suspended by the building principal or the superintendent or their designees. This includes sports and field trips.

A student subjected to a suspension from transportation is not entitled to a full hearing pursuant to Education Law S3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the building principal or the principal's designee to discuss the conduct and the penalty involved. Suspension from athletic participation, extra curricular activities and other privileges.

A student subjected to a suspension from athletic participation, extra-curricular activities or other privileges is not entitled to a full hearing pursuant to Education Law S3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the district official imposing the suspension to discuss the conduct and the penalty involved.

In-school suspension

The board recognizes the school must balance the need of students to attend school and the need for order in the classroom to establish an environment conducive to learning. As such, the board authorizes building principals and the superintendent to place students who would otherwise be suspended from school as the result of a code of conduct violation in “in-school suspension.”

A student subjected to an in-school suspension is not entitled to a full hearing pursuant to Education Law §3214. Any student who is assigned in-school suspension will be assigned to the building Alternative Learning Environment (ALE) However, the student and the student’s parents will be provided with a reasonable opportunity for an informal conference with the district official imposing the in-school suspension to discuss the conduct and the penalty involved.

Teacher disciplinary removal of disruptive students

A teacher may remove a student from the classroom for disciplinary and non-disciplinary reasons. Non-disciplinary removal would include a visit to the principal’s office, guidance or counselor’s office to discuss inappropriate behavior or a “time-out” to enable a student to regain control or composure. A student removed from a classroom for disciplinary reasons shall be placed in an alternative location (ALE room) where educational programming shall be provided. A teacher may remove a disruptive student (K –12) from his/her classroom for a time period not to exceed one instructional period.

In the event a teacher wishes to remove a student from the classroom the student shall be afforded procedural due process as follows:

- The teacher must inform the student that they are going to be removed from the classroom.
- The teacher must specifically explain to the student why they are to be removed.
- The teacher must give the student an opportunity to explain or respond.
- The teacher may then decide to remove the student from the classroom.

A teacher may remove a student who poses a danger or ongoing threat of disruption from his/her classroom immediately. In the event of such removal, the following procedures must be followed within 24 hours of the removal:

- The teacher must explain to the student why they were removed from the classroom.
- The teacher must give the student the opportunity to provide an explanation of the incident(s) that led to the removal.

When a teacher needs a disruptive student removed from the classroom, the teacher must appropriately notify the Principal or main office. The student will be escorted to either the principal’s office or ALE room. The teacher must complete the appropriate discipline referral in the student management system (School Tools) by the end of the school day. The teacher who requires a disruptive student to be removed, is required to make initial contact with the parent/caregiver.

Dependent upon the level of infraction, the principal or their designee has counseled the disruptive student, contact will be made to parent/caregiver to review circumstances and potential consequences that led to the removal. This contact must inform the parents of their right to request an informal meeting with the teacher

and/or Principal to discuss the reasons for the removal. If requested, written notice must be by personal delivery, electronically or some other means to reasonably ensure parental notification within 24 hours. If requested by the parents, the informal meeting must be held within 48 hours of the removal.

If the parents agree, the meeting may be held at another mutually convenient time. The Principal may require the teacher who removed the student from the classroom to be present at the informal conference with the parents.

A Principal or designee may overturn a teacher's removal of a student from the classroom upon a finding that:

- The charges against the student are not supported by substantial evidence;
- The removal is in violation of the law or the district's policies, regulations or procedures; or
- The conduct warrants suspension from school pursuant to a superintendent's hearing (Education Law S3214) and such suspension will be imposed.

Such determination may be made at any time from the Principal's receipt of the student removal from to the close of the business day following the 48-hour period for the informal conference.

A disruptive student removed from the classroom by a teacher shall be provided continued educational programming and activities until the principal or designee permits the student back into the classroom.

The district will require each teacher shall maintain a record of all cases of removal of a student from his/her classroom and upon which each principal shall maintain a record of each removal of a student from a classroom in the school for which he is responsible.

No teacher may remove a student with a disability from a classroom without first consulting with the Principal or the chair of the committee on special education to ensure that such removal will not constitute a change in placement. Removal of a student with a disability, under certain circumstances, may constitute a change in the student's placement. Accordingly, no teacher may remove a student with a disability from his or her class until he or she has verified with the principal or the chairperson of the Committee on Special Education that the removal will not violate the student's rights under state or federal law or regulation.

* Note: If the 24-hour or 48-hour period does not end on a school day, it shall be extended to a corresponding time on the next school day.

Suspension from School

Suspension from school is a severe penalty, which may be imposed only upon students who are insubordinate, disorderly, violent or disruptive, or whose conduct otherwise endangers the safety, morals, health or welfare of others. The board retains its authority to suspend students, but places primary responsibility for the suspension of students with the superintendent and the building principal.

Any staff member may recommend to the superintendent or the principal that a student be suspended. All staff members must immediately report and refer a violent student to the principal or the superintendent for a violation of the code of conduct. All recommendations and referrals shall be made in writing unless the conditions underlying the recommendation or referral warrant immediate attention. In such cases a written report is to be prepared as soon as possible by the staff member recommending the suspension.

The superintendent or principal, upon receiving a recommendation or referral for suspension or when processing a case for suspension, shall gather the facts relevant to the matter and record them for subsequent presentation, if necessary.

Short-term (5 days or less) suspension from school

When the superintendent or principal (referred to as the “suspending authority”) proposes to suspend a student charged with misconduct for five days or less pursuant to Education Law S3214(3), the suspending authority must immediately notify the student orally. If the student denies the misconduct, the suspending authority must provide an explanation of the basis for the proposed suspension. The suspending authority must also notify the student’s parents in writing that the student will be suspended from school. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the decision to propose suspension at the last known address for the parents. Where possible, notice must also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting the parents.

The notice shall provide a description of the charges against the student and the incident for which suspension is proposed and shall inform the parents of the right to request an immediate informal conference with the principal. The notice and informal conference shall be in the dominant language or mode of communication used by the parents. At the conference, the parents shall be permitted to ask questions of complaining witnesses under such procedures as the principal may establish.

The notice and opportunity for an informal conference shall take place before the student is suspended unless the student’s presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process. If the student’s presence does pose such a danger or threat of disruption, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.

After the conference, the principal shall promptly advise the parents in writing of his or her decision. The principal shall advise the parents that if they are not satisfied with the decision and wish to pursue the matter, they must file a written appeal to the superintendent within five business days, unless they can show extraordinary circumstances precluding them from doing so. The superintendent shall issue a written decision regarding the appeal within 10 business days of receiving the appeal. If the parents are not satisfied with the superintendent’s decision, they must file a written appeal to the board of education with the district clerk within 10 business days of the date of the Superintendent’s decision, unless they can show extraordinary circumstances precluding them from doing so. Only final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.

Long-term (more than 5 days) suspension from school

When the superintendent or building principal determines that a suspension for more than five days may be warranted, he or she shall give reasonable notice to the student and the student’s parents of their right to a fair hearing. At the hearing the student shall have the right to be represented by counsel, the right to question witnesses against him or her and the right to present witnesses and other evidence on his or her behalf.

The superintendent shall personally hear and determine the proceeding or may, in his or her discretion, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before him or her. A record of the hearing shall be maintained, but no stenographic transcript shall be required. A tape recording shall be deemed a satisfactory record. The hearing officer shall make findings of fact and recommendations as to the appropriate measure of discipline to the superintendent. The report of the hearing officer shall be advisory only, and the superintendent may accept all or any part thereof. An appeal of the decision of the superintendent may be made to the board that will make its decision based solely upon the record before it. All appeals to the board must be in writing and submitted to the district clerk within 10 business days of the date of the superintendent's decision, unless the parents can show that extraordinary circumstances precluded them from doing so. The board may adopt in whole or in part the decision of the superintendent. Final decisions of the board may be appealed to the Commissioner within 30 days of the decision.

Permanent Suspension

Permanent suspension is reserved for extraordinary circumstances such as where a student's conduct poses a life-threatening danger to the safety and well-being of other students, school personnel or any other person lawfully on school property or attending a school function.

Students who bring a weapon to school

Any student, other than a student with a disability, found guilty of bringing a weapon onto school property will be subject to suspension from school for at least one calendar year. Before being suspended, the student will have an opportunity for a hearing pursuant to Education Law S3214. The superintendent has the authority to modify the one-year suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the following:

- The student's age
- The student's grade in school
- The student's prior disciplinary record
- The superintendent's belief that other forms of discipline may be more effective.
- Input from parents, teachers and/or others.
- Other extenuating circumstances.

*A student with a disability may be suspended only in accordance with the requirements of state and federal law. Students who commit violent acts other than bringing a weapon to school, any student, other than a student with a disability, who is found to have committed a violent act, other than bringing a weapon onto school property, shall be subject to suspension from school for at least five days. If the proposed penalty is the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

Students who are repeatedly substantially disruptive of the educational process or repeatedly substantially interferes with the teacher's authority over the classroom any student, other than a student with a disability, who repeatedly is substantially disruptive of the educational process or substantially interferes with the

teacher's authority over the classroom, will be suspended from school for at least five days. For purposes of this code of conduct, "repeatedly is substantially disruptive" means engaging in conduct that results in the student being removed from the classroom by teacher(s) pursuant to Education Law S3214(3-a) and this code on four or more occasions during a semester, or three or more occasions during a trimester. If the proposed penalty is the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for an informal conference given to all students subject to a short term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

Referrals

Counseling

The school counselor or social Worker shall handle all referrals of students to counseling.

Person In Need of Supervision (PINS) Petitions

The Office of Children and Family Services of New York (Division of Youth Development and Partnerships for Success) defines a PINS Petition as *"When community-based supports have been exhausted and youth behaviors continue to escalate, a petition in family court under Article 7 of the Family Court Act may need to be considered. The clerk of the court shall accept a petition for filing only if the PINS designated lead agency has documented there is no bar to such petition and diversion services have terminated due to no substantial likelihood of further benefits from such."*

The district may file a PINS petition in Family Court on any student under the age of 18 who demonstrates that he or she requires supervision and treatment by:

- Being habitually truant and not attending school as required by part one of Article 65 of the Education Law.
- Engaging in an ongoing or continual course of conduct which makes the student ungovernable, or habitually disobedient and beyond the lawful control of the School.
- Knowingly and unlawfully possessing marijuana in violation of Penal Law S221.05. A single violation of S221.05 will be a sufficient basis for filing a PINS Petition.

Juvenile Delinquents and Juvenile Offenders

The superintendent is required to refer the following students to the County Attorney for a juvenile delinquency proceeding before the Family Court: Any student under the age of 16 who is found to have brought a weapon to school, or any student 14 or 15 years old who qualifies for juvenile offender status under the Criminal Procedure Law S1.20(42)

The superintendent is required to refer students age 16 and older or any student 14 or 15 years old who qualifies for juvenile offender status to the appropriate law enforcement authorities.

Alternative Instruction

When a student of any age is removed from class by a teacher or a student of compulsory attendance age is suspended from school pursuant to Education Law S3214, the district will take immediate steps to provide alternative means of instruction for the student.

Discipline of Students with Disabilities (NYSED Part 201 Regulations)

The GIUFSD Board recognizes that it may be necessary to suspend, remove or otherwise discipline students with disabilities to address disruptive or problem behavior. A student with a disability is defined as any student under the age of 21 enrolled in an academic program in the District with an IEP or 504 Plan. The board also recognizes that students with disabilities are guaranteed certain procedural protections outlined in New York Educational 201 Regulation, whenever school authorities intend to impose discipline upon them.

The Board is responsible for the commitment of ensuring that the procedures followed for suspending, removing or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable federal and state law and regulations.

Authorized Suspensions or Removal of Students With Disabilities

For the purposes of this section of the code of conduct, the following definitions apply:

- A **“suspension”** means a suspension pursuant to Education Law S3214.
- A **“removal”** means a removal for disciplinary reasons from the student’s current educational placement other than a suspension and change in placement to an interim alternative educational setting (IAES) ordered by an impartial hearing officer because the student poses a risk of harm to himself or herself or others.
- An **“IAES”-Alternative Educational Setting** means a temporary educational placement for a period of up to 45 days, other than the student’s current placement at the time the behavior precipitating the IAES placement occurred, that enables the student to continue to progress in the general curriculum, although in another setting, to continue to receive those services and modifications, including those described on the student’s current individualized education program (IEP), that will enable the student to meet the goals set out in such IEP, and include services and modifications to address the behavior which precipitated the IAES placement that are designed to prevent the behavior from recurring.

The Superintendent or Principal may order the suspension or removal of a student with a disability from his or her current educational placement as follows:

- The board, the district (BOCES) superintendent of schools or a building principal may order the placement of a student with a disability into an IAES, another setting or suspension for a period not to exceed five consecutive school days and not to exceed the amount of time a non-disabled student would be subject to suspension for the same behavior.
- The superintendent may order the placement of a student with a disability into an IAS, another setting or suspension for up to 10 consecutive school days, inclusive of any period in which the student has been suspended or removed under subparagraph (a) above for the same behavior, if the superintendent determines that the student has engaged in behavior that warrants a suspension and

the suspension or removal does not exceed the amount of time non-disabled students would be subject to suspension for the same behavior.

- The superintendent may order additional suspensions of not more than 10 consecutive school days in the same school year for separate incidents of misconduct, as long as those removals do not constitute a change of placement.
- The superintendent may order the placement of a student with a disability in an IAES to be determined by the committee on special education (CSE), for the same amount of time that a student without a disability would be subject to discipline, but not more than 45 days, if the student carries or possesses a weapon to school or to a school function, or the student knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function.
- U.S.C. S930(g)(w) which includes “a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury, except...(for) a pocket knife with a blade of less than 2 ½ inches in length.”
 - “Controlled substance” means a drug or other substance identified in certain provisions of the federal Controlled Substances Act specified in both federal and state law and regulations applicable to this policy.
 - “Illegal drugs” means a controlled substance except for those legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under the Controlled Substances Act or any other federal law.

Subject to specified conditions required by both federal and state law and regulations, an impartial hearing officer may order the placement of a student with a disability in an IAES setting for up to 45 days at a time, if maintaining the student in his or her current educational placement poses a risk of harm to the student or others.

Change of Placement Rule

According to the Regulations of the Commissioner of Education, Pursuant to PART 200 Students with Disabilities and PART 201 Procedural Safeguards for Students with Disabilities Subject to Discipline, a change in program means a change in any one of the components of the individualized education program of a student as described in section 200.4(d)(2) of this Part.

- Change in placement means a transfer of a student to or from a public school, BOCES or schools enumerated in articles 81, 85, 87, 88 or 89 of the Education Law or graduation from high school with a local high school or Regents diploma. For purposes of removal of a student with a disability from the student's current educational placement under Education Law section 3214, change of placement is defined in Part 201 of this Title.

A disciplinary change in placement means a suspension or removal from a student's current educational placement that is either:

- For more than 10 consecutive school days; or
- For a period of 10 consecutive school days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they cumulate to more than 10 school days in a school year and because of such factors as the length of each suspension or removal, the total amount of time the student is removed and the proximity of the suspensions or removals to one another.

- The GIUFSD may not suspend or remove a student with disabilities if imposition of the suspension or removal would result in a disciplinary change in placement based on a pattern of suspension or removal. However, the district may impose a suspension or removal, which would otherwise result in a disciplinary change in placement, based on a pattern of suspensions or removals, if the CSE has determined that the behavior was not a manifestation of the student's disability, or the student is placed in an IAES for behavior involving weapons, illegal drugs or controlled substances.

Special Rules Regarding the Suspension or Removal of Students with Disabilities

It is the responsibility of GIUFSD's Committee on Special Education to:

- Conduct Functional Behavioral Assessments (FBA) to determine why a student engages in particular behavior, and develop or review Behavioral Intervention Plans (BIP) whenever the district is first suspending or removing a student with a disability for more than 10 school days in a school year or imposing a suspension or removal that constitutes a disciplinary change in placement, including a change in placement to an IAES for misconduct involving weapons, illegal drugs or controlled substances.
- If subsequently, a student with a disability who has a behavioral intervention plan and who has been suspended or removed from his or her current educational placement for more than 10 school days in a school year is subjected to a suspension or removal that does not constitute a disciplinary change in placement, the members of the CSE shall review the behavioral intervention plan and its implementation to determine if modifications are necessary.
- If one or more members of the CSE believe that modifications are needed, the school district shall convene a meeting of the CSE to modify such plan and its implementation, to the extent the committee determines necessary.
- Conduct a manifestation determination review of the relationship between the student's disability and the behavior subject to disciplinary action whenever a decision is made to place a student in an IAES either for misconduct involving weapons, illegal drugs or controlled substances or because maintaining the student in his current educational setting poses a risk of harm to the student or others; or a decision is made to impose a suspension that constitutes a disciplinary change in placement.
- The parents of a student who is facing disciplinary action, but who has not been determined to be eligible for services under IDEA and Article 89 at the time of misconduct, shall have the right to invoke applicable procedural safeguards set forth in federal and state law and regulations if, in accordance with federal and state statutory and regulatory criteria, the school district is deemed to have had knowledge that their child was a student with a disability before the behavior precipitating disciplinary action occurred. If the district is deemed to have had such knowledge, the student will be considered a student presumed to have a disability for discipline purposes.

The superintendent, building principal imposing a suspension or removal shall be responsible for determining whether the student is a student presumed to have a disability. A student will not be considered a student presumed to have a disability for discipline purposes if, upon receipt of information supporting a claim that the district had knowledge the student was a student with a disability, the district either:

- Conducted an individual evaluation and determined that the student is not a student with a disability, or

- Determined that an evaluation was not necessary and provided notice to the parents of such determination, in the manner required by applicable law and regulations.

If there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other non-disabled student who engaged in comparable behaviors.

However, if a request for an individual evaluation is made while such non-disabled student is subjected to a disciplinary removal, an expedited evaluation shall be conducted and completed in a manner prescribed by applicable federal and state law and regulations.

Until the expedited evaluation is completed, the non-disabled student who is not a student presumed to have a disability for discipline purposes shall remain in the educational placement determined by the district, which can include suspension.

The district shall provide parents with notice of disciplinary removal no later than the date on which a decision is made to change the placement of a student with a disability to an IAES for either misconduct involving weapons, illegal drugs or controlled substances or because maintaining the student in his/her current educational setting poses a risk of harm to the student or others; or a decision is made to impose a suspension or removal that constitutes a disciplinary change in placement. The procedural safeguards notice prescribed by the Commissioner shall accompany the notice of disciplinary removal.

The parents of a student with disabilities subject to a suspension of five consecutive school days or less shall be provided with the same opportunity for an informal conference available to parents of non-disabled students under the Education Law.

Superintendent Hearings on disciplinary charges against students with disabilities subject to a suspension of more than five school days shall be bifurcated into a guilt phase and a penalty phase in accordance with the procedures set forth in the Commissioner's regulations incorporated into this code.

The removal of a student with disabilities other than a suspension or placement in an IAES shall be conducted in accordance with the due process procedures applicable to such removals of non-disabled students, except that school personnel may not impose such removal for more than 10 consecutive days or for a period that would result in a disciplinary change in placement, unless the CSE has determined that the behavior is not a manifestation of the student's disability.

During any period of suspension or removal, including placement in an IAES, students with disabilities shall be provided services as required by the Commissioner's regulations incorporated into this code.

Expedited Due Process Hearings

An expedited due process hearing shall be conducted in the manner specified by The Commissioner's regulations incorporated into this code, if:

- The district requests such a hearing to obtain an order of an impartial hearing officer placing a student with a disability in an IAES where school personnel maintain that it is dangerous for the student to be in his or her current educational placement, or during the pendency of due process hearings where school

personnel maintain that it is dangerous for the student to be in his or her current educational placement during such proceedings.

- The parent requests such a hearing from a determination that the student's behavior was not a manifestation of the student's disability, or relating to any decision regarding placement, including but not limited to any decision to place the student in an IAES.
- During the pendency of an expedited due process hearing or appeal regarding the placement of a student in an IAES for behavior involving weapons, illegal drugs or controlled substances, or on grounds of dangerousness, or regarding a determination that the behavior is not a manifestation of the student's disability for a student who has been placed in an IAES, the student shall remain in the IAES pending the decision of the impartial hearing officer or until expiration of the IAES placement, whichever occurs first, unless the parents and the district agree otherwise.
- If school personnel propose to change the student's placement after expiration of an IAES placement, during the pendency of any proceeding to challenge the proposed change in placement, the student shall remain in the placement prior to removal to the IAES, except where the student is again placed in an IAES.
- An expedited due process hearing shall be completed within 15 business days of receipt of the request for a hearing. Although the impartial hearing officer may grant specific extensions of such a time period, he or she must mail a written decision to the district and the parents within five business days after the last hearing date, and in no event later than 45 calendar days after receipt of the request for a hearing, without exceptions or extensions.

Referral to law enforcement and judicial authorities

In accordance with the provisions of IDEA and its implementing regulations:

- The district may report a crime committed by a child with a disability to appropriate authorities, and such action will not constitute a change of the student's placement.
- According to Section 300.535 Referral to an action by law enforcement and judicial authorities, the superintendent shall ensure that copies of the special education and disciplinary records of a student with disabilities are transmitted for consideration to the appropriate authorities to whom a crime is reported.
 - Rule of construction. Nothing in this part prohibits an agency from reporting a crime committed by a child with a disability to appropriate authorities or prevents State law enforcement and judicial authorities from exercising their responsibilities with regard to the application of Federal and State law to crimes committed by a child with a disability.
 - (b) Transmittal of records.
 - (1) An agency reporting a crime committed by a child with a disability must ensure that copies of the special education and disciplinary records of the child are transmitted for consideration by the appropriate authorities to whom the agency reports the crime.
 - (2) An agency reporting a crime under this section may transmit copies of the child's special education and disciplinary records only to the extent that the transmission is permitted by the Family Educational Rights and Privacy Act.

Corporal Punishment

Corporal punishment is any act of physical force upon a student for the purpose of punishing that student. Members of the trained CPI team will be called to use strategies of de escalation and behavior management. These measures are taken to create a culture of safety. However, in situations where alternative procedures and methods that do not involve the use of physical force can not reasonably be used, reasonable physical force may be used to:

- Protect oneself, another student, teacher or any person from physical injury.
- Protect the property of the school or others.
- Restrain or remove a student whose behavior interferes with the orderly exercise and performance of school district functions, powers and duties, if that student has refused to refrain from further disruptive acts.

The district will file all complaints about the use of corporal punishment with the Commissioner of Education, in accordance with Commissioner's regulations.

Student Searches and Interrogations

The board of education is committed to ensuring an atmosphere on school property and at school functions that is safe and orderly. To achieve this kind of environment, any school official authorized to impose a disciplinary penalty on a student may question a student about an alleged violation of law or the district code of conduct.

Students are not entitled to any sort of "Miranda"-type warning before being questioned by school officials, nor are school officials required to contact a student's parent before questioning the student. However, school officials will tell all students why they are being questioned.

In addition, the board authorizes the superintendent, building principals, the school nurse and district security officials to conduct searches of students and their belongings if the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the law or the district code of conduct.

An authorized school official may conduct a search of a student's belongings that is minimally intrusive, such as touching the outside of a book bag, without reasonable suspicion, so long as the school official has a legitimate reason for the very limited search.

An authorized school official may search a student or the student's belongings based upon information received from a reliable informant. Individuals, other than the district employees, will be considered reliable informants if they have previously supplied information that was accurate and verified, or they make an admission against their own interest, or they provide the same information that is received independently from other sources, or they appear to be credible and the information they are communicating relates to an immediate threat to safety. District employees will be considered reliable informants unless they are known to have previously supplied information that they knew was not accurate.

Before searching a student or the student's belongings, the authorized school official should attempt to get the student to admit that he or she possesses physical evidence that they violated the law or the district code of

conduct, or get the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought. Whenever practicable, searches will be conducted in the privacy of administrative offices and students will be present when their possessions are being searched.

Student Lockers, Desks, and other School Storage Places (School Property)

The rules in this code of conduct regarding searches of students and their belongings do not apply to student lockers, desks and other school storage places. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means that school property such as student lockers, desks and other school storage places may be subject to search at any time by school officials, without prior notice to students and without their consent.

Any damage caused to a locker is the responsibility of the student who has been assigned the locker. The student will be required to either repair the locker or be liable for the cost to repair the locker. Parents will be notified. A superintendent's hearing may be necessary if restitution is not made. Locker privileges may be denied a student at any time if, in the judgment of the Superintendent or the Principal, he /she is abusing that privilege. A reimbursable fee of \$25.00 may be imposed upon any student found to have caused damage or left his/her locker in a condition that requires extensive cleaning. The fee may be returned to the student at the end of the school year, following an inspection of the student's locker for damages. Any cost to repair or clean those damages will be deducted from the fee. If, at the end of the school year, a student's locker is found to be damaged or unclean, a fee may be imposed for the following school year.

Documentation of Searches

The authorized school official conducting the search shall be responsible for notifying the parent and promptly recording the following information about each search:

- Name, age and grade of student searched.
- Reasons for the search.
- Name of any informant(s).
- Purpose of search (that is, what item(s) were being sought).
- Type and scope of search.
- Person conducting search and his or her title and position.
- Witnesses, if any, to the search.
- Time and location of search.
- Results of search (that is, what item(s) were found).
- Disposition of items found.
- Time, manner and results of parental notification.

The principal or the principal's designee shall be responsible for the custody, control and disposition of any illegal or dangerous item taken from a student. The principal or his or her designee shall clearly label each item taken from the student and retain control of the item(s), until the items are turned over to the police. The principal or his or her designee shall be responsible for personally delivering dangerous or illegal items to police authorities. Our School Resource Officer may only conduct the search if there is reasonable cause they

will then notify local authorities.

Police Involvement in Searches and Interrogations of Students

District officials are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. Such as our SRO is in the building to help make a positive impact on our students, modeling mutual respect and the importance of it and also helping send our students in the right direction. School Resource Officers also help promote a positive relationship between the public and law enforcement. Police officials, however, have limited authority to interview or search students in schools or at school functions, or to use school facilities in connection with police work. Police officials may enter school property or a school function to question or search a student or to conduct a formal investigation involving students only if they have:

- A search or an arrest warrant; or
- Probable cause to believe a crime has been committed on school property or at a school function; or
- Been invited by school officials.

Before police officials are permitted to question or search any student, the building principal or his or her designee shall notify the student's ***parent to give the parent the opportunity to be present*** during the police questioning or search. If the student's parent cannot be contacted prior to the police questioning or search, the questioning or search shall not be conducted. The principal or designee will also be present during any police questioning or search of a student on school property or at a school function.

Students who are questioned by police officials on school property or at a school function will be afforded the same rights they have outside the school. This means:

- They must be informed of their legal rights.
- They may remain silent if they so desire.
- They may request the presence of an attorney.

Child Protective Services Investigations

Consistent with the district's commitment to keep students safe from harm and the obligation of school officials to report to child protective services when they have reasonable cause to suspect that a student has been abused or maltreated, the district will cooperate with local child protective services workers who wish to conduct interviews on students on school property relating to allegations of suspected child abuse, and/or neglect, or custody investigations. The school is not allowed to contact the parent.

All requests by child protective services to interview a student on school property shall be made directly to the building principal or his or her designee. The principal or his or her designee shall set the time and place of the interview. Appropriate school personnel, such as administrator or social worker will be present for the interview. If the nature of the allegations is such that it may be necessary for the student to remove any of his or her clothing in order for the child protective services worker to verify the allegations, the school nurse or other district medical personnel must be present during that portion of the interview. No student may be required to remove his or her clothing in front of a child protective services worker or school district official of the opposite

sex.

A child protective services worker may not remove a student from school property without a court order and the Green Island Police presence, unless the worker reasonably believes that the student would be subject to danger of abuse if he or she were not removed from school before a court order could reasonably be obtained. If the worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parent's consent.

The Principal or his/her designee will maintain appropriate records of all referrals to CPS.

Visitors to the Schools

The board encourages parents and other district citizens to visit the district's schools and classrooms to observe the work of students, teachers and other staff. Since schools are a place of work and learning, however, certain limits must be set for such visits. The building principal or his or her designee is responsible for all persons in the building and on the grounds.

For these reasons, the following rules apply to visitors to the schools:

- Anyone who is not a regular staff member or student of the school will be considered a visitor.
- All visitors will not be allowed access to the school building without prior permission from an administrator and/or classroom teacher.
- All visitors to the school must report to the Main Office upon arrival at the school. They will be required to provide their ID that will be scanned into our Raptor System. The Raptor System allows a quick background check of all individuals entering the building. Once the scan is complete, the visitor will be given a visitor sticker that must be visibly worn throughout their visit.
- Visitors attending school functions after school hours are not required to register through our Raptor System.
- Any unauthorized person on school property will be reported to the principal or his or her designee. Unauthorized persons will be asked to leave. The police may be called if the situation warrants.
- All visitors are expected to abide by the rules for public conduct on school property contained in this code of conduct and are expected to exhibit our 6 core values of the school district.
 - Any person who exhibits aggressive, verbal or physical behaviors will be reported to the principal or his or her designee and could lead to ban of the school building.

Public Conduct on School Property

The district is committed to providing an orderly, respectful environment that is conducive to learning. To create and maintain this kind of an environment, it is necessary to regulate public conduct on school property and at school functions. For purposes of this section of the code, "public" shall mean all persons when on school property or attending a school function, including students, teachers and district personnel.

The restrictions on public conduct on school property and at school functions contained in this code are not intended to limit freedom of speech or peaceful assembly. The district recognizes that free inquiry and free expression are indispensable to the objectives of the district. The purpose of this code is to maintain public order and prevent abuse of the rights of others.

All persons on school property are expected to show good citizenship and responsible behaviors. Any person who exhibits verbal or physical intimidation of personnel and/ or other visitors will be reported to the principal or his or her designee and could lead to ban of the school building.

All persons on school property or attending a school function shall conduct themselves in a respectful and orderly manner. In addition, all persons on school property or attending a school function are expected to be properly attired for the purpose they are on school property.

Prohibited Conduct

No person, either alone or with others, shall:

- Verbally or physically intimidate any school personnel and/or other visitors.
- Intentionally injure any person or threaten to do so.
- Intentionally damage or destroy school district property or the personal property of a teacher, administrator, other district employee or any person lawfully on school property, including graffiti or arson.
- Disrupt the orderly conduct of classes, school programs or other school activities.
- Distribute or wear materials on school grounds or at school functions that are obscene, advocate illegal action, appear libelous, obstruct the rights of others, or are disruptive to the school program.
- Intimidate, harass or discriminate against any person on the basis of race, color, creed, national origin, religion, age, gender, sexual orientation or disability.
- Enter any portion of the school premises without authorization or remain in any building or facility after it is normally closed.
- Obstruct the free movement of any person in any place to which this code applies.
- Violate the traffic laws, parking regulations or other restrictions on vehicles.
- Possess, consume, sell, distribute or exchange alcoholic beverages, controlled substances, or be under the influence of either on school property or at a school function.
- Possess or use weapons in or on school property or at a school function, except in the case of law enforcement officers or except as specifically authorized by the school district.
- Loiter on or about school property.
- Gamble on school property or at school functions.
- Refuse to comply with any reasonable order of identifiable school district officials performing their duties.
- Willfully incite others to commit any of the acts prohibited by this code.
- Violate any federal or state statute, local ordinances or board policy while on school property or while at a school function.

Penalties

Persons who violate this code shall be subject to the following penalties.

- Visitors: Their authorization, if any, to remain on school grounds or at the school function shall be withdrawn and they shall be directed to leave the premises. If they refuse to leave, they shall be subject to ejection with support from the SRO.

- Visitors who demonstrate disorderly conduct during a school function may face temporary or permanent suspension from all future school activities.
- Students: They shall be subject to disciplinary action as the facts may warrant, in accordance to the due process requirements.
- Tenured faculty members: They shall be subject to disciplinary action as the facts may warrant in accordance with Education Law S3020-a or any other legal rights that they may have.
- Staff members in the classified service of the civil service entitled to the protection of Civil Service Law S75. They shall be subject to immediate ejection and to disciplinary action as the facts may warrant in accordance with Civil Service Law S75 or any other legal rights that they may have.
- Staff members other than those described in subdivisions 4 and 5. They shall be subject to warning, reprimand, suspension or dismissal as the facts may warrant in accordance with any legal rights they may have.

Enforcement

The building principal or his or her designee shall be responsible for enforcing the conduct required by this code.

When the building principal or his or her designee sees an individual engaged in prohibited conduct, which in his or her judgment does not pose any immediate threat of injury to persons or property, the principal or his or her designee shall tell the individual that the conduct is prohibited and attempt to persuade the individual to stop. The principal or his or her designee shall also warn the individual of the consequences for failing to stop. If the person refuses to stop engaging in the prohibited conduct, or if the person's conduct poses an immediate threat of injury to persons or property, the principal or his or her designee shall have the individual removed immediately from school property or the school function. If necessary, local law enforcement authorities will be contacted to assist in removing the person.

The District shall initiate disciplinary action against any student or staff member, as appropriate, with the "Penalties" section above. In addition, the district reserves its right to pursue a civil or criminal legal action against any person violating the code.

Initiation of a Student Disciplinary Proceeding

Any teacher, administrator, board member, parent, or other person may report a violation of the student disciplinary code to the Principal. The Principal will then make an investigation of the charges as deemed appropriate and institute an informal or disciplinary proceeding, and/or make a referral to the Child Study Team or to the Committee on Special Education, as she/he deems necessary.

Dissemination of Code of Conduct

The board will work to ensure that the community is aware of this code of conduct by any or all of the following:

- Providing copies of a summary of the code to all students at a general assembly held at the beginning of each school year.
- Making copies of the code will be available online and hard copies will be available from the main office to all parents at the beginning of the school year within 30 days of the official adoption by the Board of Education.
- Providing all current teachers and other staff members with a copy of the code and a copy of any amendments to the code as soon as practicable after adoption. All current teachers and staff members will be provided in service educational programs to ensure effective implementation of the code of conduct.
- Providing all new employees with a copy of the current code of conduct when they are first hired.
- Making copies of the code available for review by students, parents and other community members.

The board of education will review this code of conduct every year and update it as necessary. In conducting the review, the board will consider how effective the code's provisions have been and whether the code has been applied fairly and consistently.

The board may appoint an advisory committee to assist in reviewing the code and the district's response to code of conduct violations. The committee will be made up of representatives of student, teacher, administrator, and parent organizations, school safety personnel and other school personnel.

The code of conduct and any amendments to it will be filed with the Commissioner no later than 30 days after adoption.
